MULTI-CREW CO-OPERATION TRAINING

Our World-Class Training:

MULTI-CREW CO-OPERATION TRAINING

Gain multi-crew skills while earning your multi-engine helicopter rating. Our MCC training program hones essential non-technical skills for seamless multi-crew collaboration. Whether PIC or co-pilot, our training readies both roles for effective joint operation. Mandatory for multi-crew piloting, MCC training is integral to securing a multi-crew pilot license and ATPL(H) certification. Even PPL(H) or CPL(H) holders need MCC training for multi-crew operations, ensuring competence in flying or monitoring duties.

Pass Requirements for your Multi-Crew Co-Operation Training:

There are no examinations required for this type of training.

The South African minimum requirements for Multi-Crew Co-Operation Training are:

- 18 Years or older
- PPL(H) or CPL(H) or ATPL(H)
- Multi-Engine Rating, or obtain your MER while doing the MCC with us
- Fluent in English (Speak, read, write, and understand) and pass the English Proficiency Examination
- A Class I or II Aviation Medical.
 - We will assist you with booking your Aviation Medical appointment.

Flight Hours:

approx. 8hours

- 7-hours Bell222 simulator training
- 3-hours Bell222 multi-engine for those individuals that do not possess a multi-engine helicopter rating yet.
